PRESS RELEASE

**ATLANTIC CITY MUA WEBSITE
NOW IN OVER FIFTY (50) LANGUAGES**

In order to improve service to the Atlantic City Municipal Utilities Authority (MUA) customers and increase transparency of the MUA's operations, the MUA has added a translator to its website. Anyone who logs on to the website (www.acmua.org) should look in the upper right hand corner for the translator button. Using this free translator from Google, the user can select one of over fifty (50) languages that will change the wording on that page to the language that they selected. The system isn't perfect and not all words translate completely. However, it is an important step in improving our customer relations.
